Project

Field(s) GENDER EQUALITY NETWORK

Description

The global idea of the project is to organize one event per partner country that would be dedicated to a specific topic related to gender equality. The event has to bring a maximum of foreign participants (30%) so it's needs the partner who organizes to be creative. Every partner decides what kind of event they want to organize (cultural event, sportive event, sensitization actions, seminars, etc.). The specific topic is decided together with the other partners.

Aim of the project:

Develop a long-term cooperation around gender equality based on a compared approach and good practices – create a long-term link between public stakeholders, pupils, not-for-profit organizations.

Create a network of Councils, cities and towns to hold a series of conferences to promote and inform people on gender equality.
